

Proposition 65 Compliance Statement

January 29, 2018

This statement confirms that Delta Electronics is aware of the requirements of California Proposition 65 (the Safe Drinking Water and Toxic Enforcement Act of 1986). It is our intention to comply with the requirements of this regulation as it applies to notification when listed chemicals are present in significant amounts within our products.

Chemicals listed in Proposition 65 are not intentionally or knowingly added to Delta Electronics products during manufacture unless otherwise noted in the exceptions section below. We will continue to work with our suppliers to identify any listed chemicals contained in the materials procured for use in manufacturing Delta Electronics product.

Exceptions: (Prop 65 listed chemicals contained in Delta Electronics product)

- Beryllium and beryllium compounds - Some Delta Electronics connectors include components manufactured from Beryllium Copper material. Specific product information is available upon request.
- Lead and lead compounds - Some Delta Electronics connectors include components machined from 360 alloy brass, which may contain up to 3% lead as an alloying element. RoHs exemption 6c allows up to 4% lead as an alloying element in copper alloys. Specific product information is available upon request.
- Nickel - Some Delta Electronics connectors include components that are nickel plated. Specific product information is available upon request.

Sincerely,

Mark Reagan
