BMMA Interfaces

Delta BMMA series plugs are compact, high-performance connectors that mate with all standard BMMA series jacks. Designed to meet all applicable requirements, they offer good electrical performance up to 28 GHz. These connectors are ideal for use in rack-and-panel applications. Current configurations include: Bulkhead Feedthrough Cable Jacks & Plugs, Float Mount -Snap-In Direct Solder Jacks, Panel Mount Field Replaceable Plugs, One Step Direct Solders Jacks, Threaded Field Replaceable Plugs and Adapters. As always, if you are in need of a BMMA interface with unique body, contact or insulator requirements, Delta specializes in customizing connectors for our customers at no additional cost. Give us a call and we can collaborate and come up with a solution for your project together. Compatible with Tyco® Electronics OSSP Subminiature Connectors.
